

This is a test page originally created in MSWord 2000 and then turned into an Adobe Acrobat (pdf) file. All Adobe Acrobat files end in the three letter file extension PDF which stands for Portable Document Format.

If you can read this page then you have Adobe Acrobat Reader already installed on your computer.

You need Adobe Acrobat Reader **version 4** or higher. To find out which version you have, click **HELP** followed by **ABOUT ADOBE ACROBAT**.

If you have version 4, or 5, or higher, then you do not need to install a new version from the CD.

Thank you.
